

# Floral Lace Mum Card

1. Select side mats 2 from the USB and weld it to a 140mm square from the machine's memory. Cut from white card.
2. Send the file you created in step 1 into Canvas Workspace. Ungroup. Delete the inner detail but save the centre of the largest flower. Download the file and cut it from red card.
3. Cut the red shape from step 2 in to two parts. The top section and a square. (You will know where to cut as the top section goes behind the top of the white piece from step 1 and the red square goes on the front below the detailed top section) Glue the two pieces in to position.
4. Cut side mats 3 on the USB from black card. Glue this on top of the white detailed section on your card.
5. Cut a 134mm square from white card. Glue this on top of the red square on the front of your card.
6. Cut a 128mm square from black card and glue in place.
7. Select side mats 4 and isolate the largest flower and delete the rest. Cut 1 from red card. Glue this to the flower in the detailed section on your card.
8. Rotate the flower 20 degrees to the right and duplicate it so you have 3. Flip one of the flowers and weld all three together in a row. Resize to 50mm x 140mm and cut from red card.

9. Send the welded row of flowers from step 8 into Canvas Workspace. Ungroup and delete the centres of the flowers. Download. Cut from white card.
10. Glue the red row of flowers on top of the row of white flowers.
11. Cut 4 of the flower centres you saved in step 2 from black card. Glue one to the centre of each flower.
12. Cut a 122mm 63mm white rectangle.
13. Cut a 116mm 57mm black rectangle. Glue on top of the white rectangle. Glue to the card.
14. Select MUM from the fonts in your machine and size to 40mm. Cut from red card.
15. Send the word MUM in to Canvas workspace and ungroup. Create a 2mm outward offset line for each letter. Download. Cut from white card.
16. Glue the red letters on to the white mat. Glue them on to the rectangle on your card.
17. Select a square from the machines' memory and resize to 140mm. Add a perforation line approx 20mm down from the top of the card. if you don't have a perforation line in your ScanNCut, score with a scoring board.
18. Glue this to the back to complete your card.

# Heart Card

(made from the Get Well Soon Card files on the USB)

1. Select Card 1 from the Get well soon files on the USB. Cut 1 from white and 1 from black card.
2. Select Card 1 again and add a score lines. One at the top, just under where the heart dips in the middle and another across the centre horizontally.
3. Select the Lace Heart and the Large heart files from the USB.
4. Align them centrally vertically and centrally horizontally. Select the heart in the middle and move it up 10 spaces on an SDX machine or 5 spaces on a CM Series machine.
5. Cut step 4 from black card.
6. Use spray adhesive on the front of the white heart from step 1.
7. Glue the black hearts from step 5 on top of the sprayed white card.
8. Cut Step 4 from red and pink card.
9. Inlay the red and pink waste into the black hearts.
10. Glue the remaining red and pink hearts on to the flat black heart. Inlay as required.

11. Glue the scored black heart in place to create the easel.
12. Select the Heart flowers file from the USB and cut from red and pink card. layer them up and add the centres.
13. Select shape BA-AO95 from the machine and resize to 25mm. Cut as many as required for your leaves.
14. Glue the flowers on the front and the inside of the card to create the stopper.
15. Add your own sentiment.

# With Love Card

(made from the Good Luck Card on the USB)

1. Select the Corner flourish file from the USB. Resize to 160mm. Duplicate it so you have 2 and flip 1 of them. Cut them from green card.
2. Send the above resized file in to Canvas Workspace and ungroup it. Move the outer edge away from the inner detail and delete the detail.
3. Create a 1mm outward offset line. Delete the original. Ungroup. Move the outer edge and delete everything else. Download.
4. Duplicate the downloaded file from step 3 and flip 1 of them. Weld the two together and cut from green card.
5. Glue Step 1 on to step 4.
6. Select the Small corner flourish file from the USB. Delete the one on the left and rotate the other 45 degrees to the right. Duplicate it so you have 7 in total. Arrange them in a straight line and overlap them slightly. Weld.
7. Cut 7 rows of the above from white card and glue them on top a piece of white card and then trim it down to 192mm square.
8. Select the oval frame from the USB. Group it together and rotate it 90 degrees to the right. Resize it to 75mm x 125mm.

9. Send the oval frame in to Canvas workspace. Duplicate it and ungroup one of them. Separate the outer edge and the inner shape. Add a 3mm outward offset line to the outer edge. Download.
10. Cut the complete frame from green card, the inner shape from yellow card and the mat layer from green card. Glue together.
11. Select the letters WITH LOVE from the machines memory and resize to 26mm. Add a 1mm outward offset line to each letter either in Canvas or on your SDX.
12. Cut the letters from white card and the mat layer from brown and glue them together. Glue on top of the oval.
13. Select the Sunflowers file from the USB. Cut the following from yellow card:
  - 6 x large
  - 12 x medium
  - 10 x smallCut the following from brown card
  - 3 x large centres
  - 3 x medium centres
  - 2 x small centres.Build the flowers and glue together.
14. Select the square from the machines' memory and resize to 198mm square.
15. Glue the card together as shown in the photo.
