Top Tips

1. Why not use grey board to reinforce your designs.
2. Ensure your blade depth is set correctly for the material you are cutting to avoid damaging the mat.
3. If resizing the project, make sure you resize all elements and save these in a new file so you can use them as required.
4. If using scraps of paper, scan first so you can get the most out of your cardstock.

5. Colour coordinate your projects to fit in with your home décor.
6. Why not start with a small project and work up to a bigger project so you can see your progress!
7. Ink the edges of your projects to create a vintage look.
8. Co-ordinate home décor projects by cutting files from matching wallpaper.
