Log Cabin

1. Using the Base Sides, Top, and Base, glue the tabs to the corresponding edges to create a flat box shape.

2. Using the Cabin Back, Base, Front, and Sides, Roof 1 and Roof 2 pieces, glue together to create the basic cabin box shape as shown in the image. The Side piece with the window cut should be placed on the right-hand side of the cabin.

3. Using the Roof Mat 1 and Roof Mat 2 pieces, curve the tile sections upwards to create a dimensional tile effect.

4. Mat the Roof Mat 1 piece to the left-hand side of the roof, and the Roof Mat 2 piece to the right-hand side of the roof.

5. Glue the Front Snow Mat piece to the top of the Front section of the cabin.

6. Glue the Windows and Door to the corresponding cut outs on the cabin.

7. Using the Chimney piece, assemble by folding along the score lines and gluing the tabs to the corresponding edges.

8. Mat the Chimney Mat pieces to the corresponding sides of the Chimney piece.

9. Using the large Porch piece, fold along the score line.

10. Using the small Porch pieces, fold the tabs along the score lines and glue the back and top tab to the back and top of the main Porch piece as shown in the image.

11. Take the cabin section and glue to the Base section, ensuring they are lined up at the back.

12. Using the Chimney piece, glue to the left-hand side of the base and cabin so it lines up with the bottom of the base and slots into the cut out in the Roof 1 piece.

13. Using the porch piece, glue the back to the front of the cabin section, and the two bottom tabs to the base.

14. Decorate with embellishments.

Christmas Tree

Cutting List

Fireplace

1. Using the Fireplace piece, fold the outer panels forwards and glue the tabs to the corresponding sides.

2. Glue the Fireplace piece to the inside edges of the Front piece as shown in the image.

3. Glue the Top, Sides, and Base to the corresponding edges, and the Back piece to the back of the fireplace.

4. Using the Hearth pieces, glue the rail detail pieces to the sides of the base piece.

5. Glue the Fireplace section inside the Hearth section, lining up at the back.

6. Using the largest Mantelpiece piece, fold along the score lines and glue the long tab to the corresponding edge. Glue the small Mantelpiece pieces to either side of the large piece.

7. Glue the Mantelpiece to the top of the Fireplace, ensuring it is centred from the front view and lines up at the back.

8. Mat the Fireplace Mat and Front Mat pieces to the corresponding areas.

9. Using the Grate piece, fold along the score lines and glue the tabs to the corresponding sides.

10. Using the Fire piece, layer up to create a fire effect. Glue the fire into the grate.

11. Glue the completed Fire and Grate piece to the hearth so it sits inside the fireplace.

12. Decorate with embellishments as desired.

Bonus Wreath

Why not try adding the Mistletoe Wreath to the Partridge in a Pear Tree to make a whole new piece?

Add a bow to the top of the wreath to give it a more luxurious appeal. We've used red ribbon, but you could use a different colour or materials such as silk or hessian to make it more traditional.

By giving it a coat of water-based sealer to help it resist moisture, you could hang it outside!
