Cards

In every folder to make each Card, you will find all the card base, mats and decorations to make that Card. If desired cut more embellishments to decorate your cards. Some cards include Sentiments, however included on the USB is a Sentiments folder full of various words which can be used on your Card.

For the majority of the cards, cut one of each file in the folder. Then layer up and glue the mats and embellishments to create each card. For certain cards there is a cutting list and instructions on how to build the card.
