10. Insert LED lights into the house to illuminate the rooms. Use tape to attach to the inside of the Rear Wall. Remember you will need to have access to the on/off switch and batteries, so it’s best to run the wire through one of the bottom corners of the house to the outside. You can use the gravestones included in the outside folder to hide the battery pack.

1 x of each file for each Leg and Boot

Skirt
2 x Base
4 x Skirt Panels
8 x Pleats

Broomstick
1 x Stick
2 x Broom
1 x Buckle

Crash

**Crash**

1. Cut the Construction Board (or use multiple layers of heavy card stock) to create the Crash in the wall. Glue the black card Crash on top. Hot glue the Witch’s Skirt Base and Broomstick to the Crash.

2. Glue the broken Wall Pieces around the Crash.

You can leave the paperclips in place and mount the Bat now if you wish.
